

BallaratLine

UPGRADE

Proposed station layout Rockbank

The Ballarat Line Upgrade will deliver better train services and facilities for regional Victorians

Have your say

As part of the Ballarat Line Upgrade we're upgrading Rockbank station and building additional platforms at Bacchus Marsh and Ballan stations.

Rockbank station will be upgraded to cater for the growing local community.

We want your feedback on the proposed station concepts and layouts so we can understand what's important to local residents and commuters.

The upgraded Rockbank station will have improved access, better integration with buses, cars and pedestrians, improved security and lighting and improved landscaping in the area.

Works will include:

- Demolition of the existing station
- Rebuilding two new platforms
- Construction of a new accessible pedestrian overpass linking the north and south platforms
- Providing a new sealed carpark, bus bays, taxi bays, secure bike storage areas and drop-off zones
- Setting aside areas for future station development

How you can get involved

Information session

Come and meet our technical experts and have your say at the community information session:

Rockbank Hall, 24 Leakes Road
Thursday 7 September. Time: 4pm-7pm

Online survey

View the proposed layouts and provide your feedback by completing the survey on the Ballarat Line Upgrade website ballaratlineupgrade.vic.gov.au by 11:59pm Sunday 10 September 2017. Depending on how much feedback you'd like to offer, this survey should take 10-15 minutes to complete.

You can also send your feedback via email:
ballaratlineupgrade@ecodev.vic.gov.au

or mail:

BUILDING OUR FUTURE

Rockbank station – new and improved

Concept only.

What is the Ballarat Line Upgrade?

The Australian and Victorian governments are upgrading the Ballarat line to deliver more frequent and reliable trains for Melbourne's outer western suburbs, Melton, Bacchus Marsh, Ballan and Ballarat.

The \$518 million upgrade will enable much needed extra services in the morning and afternoon peak, plus a train every 40 minutes off-peak for these growing communities.

Major construction will commence in late 2017 with a target completion date of late 2019.
